

# Russian- German WWF cooperation on climate adaptation and awareness

- Great self-value of adaptation and education/awareness
- Basis for mitigation
- Success stories mobilizing any activities/deals

**RUSSIA-GERMANY SCIENCE FORUM,**  
Green transformation, views from  
Russia and Germany  
Session: Cooperation in Climate Issues  
Moscow, High School Of Economy,  
17-18 March, 2021

# Important role of German International Climate Initiative

**Past.** Bikin and Kedr projects in the Russian Far East. The first large carbon projects in Russia. Bikin C units sold on voluntary market for Indigenous Community "Tiger" and used, e.g. for modernization of energy supply with mitigation effect.

**Now.** Northern Regions adaptation of nature protection system and supplementary social deals with mitigation effect.

**Future.** Amur River basin water management adaptation project with natural, social and mitigation effects.

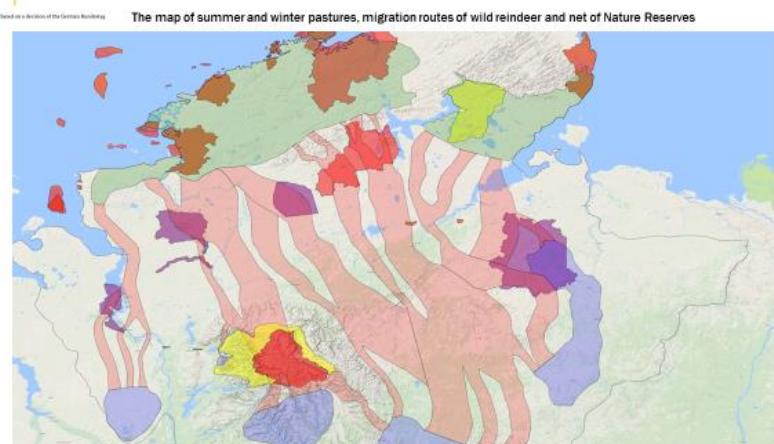

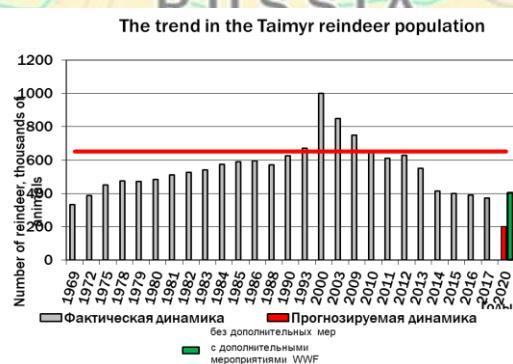

Supported by:

Federal Ministry  
for the Environment, Nature Conservation  
and Nuclear Safety

based on a decision of the German Bundestag

# Biodiversity conservation in Russian Northern territories by expanding and enhancing of protected area system adapted to climate change

Supported by:

Federal Ministry  
for the Environment, Nature Conservation  
and Nuclear Safety

based on a decision of the German Bundestag

# Biodiversity conservation in Russian Northern territories by expanding and enhancing of protected area system adapted to climate change

## Supplementary activities for indigenous Arctic people

- **15+ adaptation/social sub-projects (jobs, crafts, culture, tourism, etc.)**
- **11 wind/solar units for settlements in Chukotka**

**It is precondition for biodiversity adaptation as well as roll-out of mitigation.**

WWF DE and RU  
projects 2019-2021

## «Increase awareness of youth on climate change issues»

Dissemination of scientific knowledge in modern form adjusted to on-line education. Key point is to ensure people in anthropogenic reason and outline long-term perspectives

New web-site «Climate Change in Russia» [изменениеклимата.рф](http://изменениеклимата.рф)

Interactive lessons for schools [урок.изменениеклимата.рф](http://урок.изменениеклимата.рф)

- Detail scenario
- Animated presentation
- Cards for games
- Memo with useful advises
- Methodological guide and instruction

About 4500 schools used the lessons

On-line courses [курс.изменениеклимата.рф](#)

Russian lectures on WWF site

“Climate Change in Russia”,  
including Arctic, Paris Agreement,  
“Forest and Climate”, six regions of the  
North, Far East and Altai

<https://wwf.ru/what-we-do/climate-and-energy/lektsii-izmenenie-klimata/>

Video lectures, presentations in open  
ppt format, manual on open doc format

The screenshot shows a webpage titled "КЛИМАТ И ЭНЕРГЕТИКА". The main content features a photograph of a vast, dry landscape under a blue sky with white clouds. Overlaid on the bottom left of the photo is the text "ЛЕКЦИИ 'ИЗМЕНЕНИЕ КЛИМАТА В РОССИИ'". To the left of the photo is a sidebar with a vertical navigation menu:

- ПОДРОБНЕЕ О СТРАТЕГИИ
- ЧТО УЖЕ СДЕЛАНО?
- СНИЖЕНИЕ ВЫБРОСОВ СО2 И ДРУГИХ ПАРНИКОВЫХ ГАЗОВ
- ЛЕС И КЛИМАТ
- АДАПТАЦИЯ К ИЗМЕНЕНИЯМ КЛИМАТА

At the very top of the sidebar, there are links: "ГЛАВНАЯ / НАША РАБОТА / КЛИМАТ И ЭНЕРГЕТИКА / ЛЕКЦИИ 'ИЗМЕНЕНИЕ КЛИМАТА В РОССИИ'".

International Massive Open On-line  
Course (MOOC) “Climate Change:  
Risks and Problems”

WWF DE - > WWF RU -> NArFU

The first official course of a federal  
Russian university

МЕЖДУНАРОДНЫЙ ОТКРЫТЫЙ  
КУРС ДЛЯ ДИСТАНЦИОННОГО  
ОБУЧЕНИЯ НА РУССКОМ ЯЗЫКЕ

Этот курс разработан WWF Германии, переведен на русский язык и адаптирован для русскоязычной аудитории Ассоциацией «Национальный арктический научно-образовательный консорциум» и Северным (Арктическим) федеральным университетом.

Курс содержит информацию:

- об изменениях климата по всему миру, рисках и ущербе от изменений климата в разных странах, особенно в наиболее уязвимых;
- о необходимости и способах снижать антропогенные выбросы парниковых газов.

+ УЗНАТЬ ПОДРОБНЕЕ И ПРОЙТИ

# Have a good climate!

**Already and only 2/3 of Russians recognize anthropogenic reason of negative climate changes, i.e. **more efforts are required for public support of large-scale carbon regulation/mitigation.****

**Russian-German cooperation and success stories are certainly required.**
